Mining claimants can now pay their annual maintenance fees online at www.blm.gov/payportal

LR2000 is not available from 1:00 AM - 3:00 AM Mountain Time

Bureau of Land Management's Land & Mineral Legacy Rehost 2000 System - LR2000

If your browser gets "...cannot display the webpage", you need to **ENABLE TLS 1.0**.

Announcement: MAC users use Firefox Browser to run reports.

The Bureau of Land Management's Legacy Rehost System called LR2000 provides reports on BLM land and mineral use authorizations for oil, gas, and geothermal leasing, rights-of-ways, coal and other mineral development, land and mineral title, mining claims, withdrawals, classifications, and more on federal lands or on federal mineral estate.

The following types of reports are available in LR2000:

- **New Reports:**
 - **Case Recordation (CR) Solar Energy Projects (PDF)** - This report provides information on the number of solar energy ROW actions being processed and granted on public lands.
 - **Case Recordation (CR) Wind Energy Projects (PDF)** - This report provides information on pending: wind energy applications, wind energy site applications, and wind energy development projects as well as existing wind energy development projects on public lands.
 - **Case Recordation Geothermal Nominations (PDF)** - This report lists the land descriptions for lands nominated for a geothermal sale.
 - **Oil and Gas Leases Issued (PDF)** within a specific time frame
- **Serial Register Page** - provides all online information about the authorization including status, geographic location, authorized land, customer information, acreage, dates (effective, expiration, etc), and other information.
- **Customer Information Reports** - provides all the authorizations, mining claims, etc. for a customer.
- **Geographic Reports** - provides a listing of authorizations, mining claims, title, etc. within a specific geographic area and may include serial number, acreage, authorized land, customer info, federal agency, authorization type and disposition (active, closed, pending, etc). Statistical reports for an area can also be run. **More ...**

System Requirements

- IE v6+, or Firefox
- **Enable TLS 1.0**
- Enable popups

Please allow popups. You might want to set your popup blockers off or allow this site in.

- Enable Scripting

LR2000 Information and Help Guides to get you started:

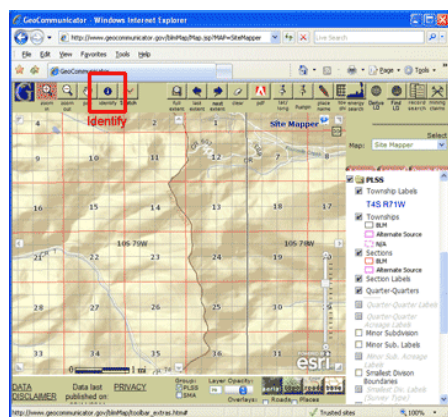

- Read "**Introduction to the LR2000 System**" before you begin.
- **Report Summaries and Help Guides** - provides information on report results and search criteria
- **BLM State Office list of Information Access Centers** - provides contact information
- **Reference Codes** - provides LR2000 codes and help guides
- **Searching LR2000 for Land and Mineral Reports** - provides a brief summary on searching for reports

LR2000 provides access to the following systems. To run reports you will need to know which of the following systems the information you are looking for is in:

- **Case Recordation (CR)** contains information on land and mineral use authorizations, title, withdrawals, classifications, and more issued by the BLM on federal actions affecting public lands of the United States. **More ...**
- **Mining Claim Recordation (MC)** contains information on unpatented mining claims located on federal lands. **More ...**
- **Status** contains information on withdrawals, land classifications, and title transfer

documents issued mainly before 1984. Title documents transferred lands in and out of government ownership. **More ...**

- **Legal Land Description (LLD)** contains cadastral survey data and other information such as state, county, BLM field office, and surface management agencies (BLM, Forest Service, etc.). **More ...**

**GeoCommunicator
Interactive Map Viewer Showing
Township/Section**

Don't know the Township and Range Information for running a LR2000 Geographic Report?

You can use **GeoCommunicator's** interactive map viewer to find the State, Principal Meridian, Township, Range, and Section information for the area you are interested in. Once you locate the land description you can use this information to run LR2000 Geographic Reports. To find the land description follow the guidelines below:

- Bring up the **Map Viewer**
- Go to your area of interest by using any of the following tools: Zoom In, Place Name, or Lat/long (if you have the coordinates for your claim or area).
- Once you have located your area on the map, click in the box next to the PLSS ("Public Land Survey System") map layer folder to display the township data on the map.
- Click the Identify tool at the top of the map and then click in your area on the map to get the location information. The information will be displayed on the "Call Out" on the map or under the PLSS tab on the Identify window.
- Use the Township information to run LR2000 Geographic Reports.
