INTRODUCTION

WestLand Resources, Inc. (WestLand), was retained by Resolution Copper Mining, LLC (RCM), to provide Clean Water Act (CWA) Section 404 permitting support for the installation of two culverts, one of which is located on Magma Mine Road and the other on the proposed powder magazine access road (the Project). The Project occurs within private land owned by RCM, near Superior, Arizona (Township 1 South, Range 13 East, NW ¼ of Section 32, Superior Quadrangle, Pinal County, Arizona; *Figures 1 and 2*). In support of the CWA permitting analysis, a Class III archaeological survey was performed within approximately 0.45 acre
